SUBJECT INDEX TO VOLUME XXX

(abs) = abstract (E) = editorial

Abdomen, disease processes of, transmigration pleuritis in (abs), 119
Abscess, pulmonary (abs), 125
pulmonary, roentgen diagnosis (abs), 125
Abscesses, bronchiectasing and bronchiectatic (abs) 124
Acetabulum, intrapelvic protrusion of (abs), 824; (abs), 825
Actinomycosis, therapy of, 508
Adenomas of pituitary, 765
Adenopathy, tuberculous, in children, perifocal reaction in (abs), 275
Adrenal glands, relation of, to malacic diseases of bone, 641
Agranulocytosis (abs), 142
Allergic processes in pulmonary tuberculosis, roentgen manifestations, 296
American Congress of Radiology (E), 244; (E), 534
scientific program, 250
American Radium Society, new officers, 539
American Roentgen Ray Society, new officers, 539
American Society for Control of Cancer, relation of, to radiologists, 723
Ammonium chloride, influence of, on evolution of experimental sarcoma (abs), 567
Anatomical basis for disturbed function in evaluation of permanent disability, 40
Anemia, effect of, on reactions of skin and of tumors to radium exposure (abs), 562
erythroblastic (abs), 143; 657
erythroblastic, clinical and pathologic study (abs), 142
Aneurysm, dissecting, of thoracic aorta, roentgen diagnosis (abs), 276
of innominate artery (abs), 702
Aneurysms, heart, diagnosis (abs), 276
multiple, of smaller branches of pulmonary artery, 443
Angiography (abs), 129
Angiopneumography (abs), 129
Aorta, and pulmonary artery, communication between (abs), 128
Kreuzfuchs measurement of (abs), 128
thoracic, roentgen diagnosis of dissecting aneurysm of (abs), 276
Aortitis, early syphilitic, an evaluation of roentgen diagnostic methods (abs), 701
Apparatus for superficial therapy using a combined valve roentgen tube (abs), 427
improved model of duodenal serial frame (abs), 424
Appendix, morphologically considered, 791
Arterial system, roentgen visualization of (abs), 129; (abs), 274
Arteriography (abs), 274
pulmonary, experimental study (abs), 274
renal (abs), 282
Arteriosclerosis, peripheral, roentgen diagnosis (abs), 828
Artery, innominate, two cases of aneurysm of (abs), 702
pulmonary, multiple aneurysms of smaller branches of, 443
Arthritis, relation of trauma to, 26
traumatic, therapeutic value of periarticular injections of novocaine in (abs), 141
Arthrokatadysis of hip joint (abs), 825
Asbestosis, pulmonary (abs), 126
Astragalus, giant cell tumor of (abs), 828
Atelectasis: See Lungs, massive collapse
Atrophy, local, of bone, 34
Auricular fibrillation, roentgen image of (abs), 277
Azygos vein: See Lungs

Backache, anatomical consideration (abs), 823
Baetjer, Frederick H., obituary notice (E), 405
portrait, 404
Beta rays, secondary, from surface of radium containers (abs), 562
Biliary dynamics (abs), 279
Bladder, double, with double penis, 497
Blood, effect of roentgen irradiation on alkali reserve of (abs), 425
examination of, in some x-ray workers (abs), 558
influence of thorotrast on (abs), 551
local circulation of, and cancer (abs), 570
modifications of, in patients irradiated for cancer of uterine cervix (abs), 568
serum, effect of roentgen irradiation on sodium content of (abs), 425
studies of, in infants and children (abs), 142
variations in lactic acid content of, after roentgen irradiation of normal and pathological tissues (abs), 425
Bone, dysplasia of, congenital, associated with lesions of parathyroid glands (abs), 138
echinococcus disease of (abs), 827
local atrophy of, 34
malacic diseases of, relation of thyroid, adrenals and islands of Langerhans to, 641
malacic diseases of, symposium on, 571–674
sarcoma, treatment of (abs), 423
tumor, giant cell, 604
Bones, cystic disease of, irradiation of parathyroids in (abs), 547; 668
generalized fibrocystic disease of (abs), 139
roentgenography of, in Gaucher's disease (abs), 140

Book Reviews
A Textbook of Surgery. By John Homans, 108
Peptic Ulcer. By Jacob Buckstein, 108
Les kystes hydatique intrathoraciques centraux et parietaux; chirurgie; radiologie. Par R.-G. Brun et A. Jaubert de Beaujeu, 109
The Physiological Effects of Radiant Energy. By Henry Laurens, 109
La technique de la curiethérapie. Par Simone Laborde, 109
Recent Advances in Radium. By W. Roy Ward and A. J. Burden Smith, 413
Roentgenographic Studies of the Urinary System. By William E. Lower and Bernard H. Nichols, 413
Handbuch der Röntgendiagnostik und- therapie im Kindesalter. Herausgegeben von Prof. Dr. St. Engel, und Dr. L. Schall, 414
Borderline rays, erythema production experiments with (abs), 556
Brain, meningiomas of convexity of (abs), 271
metastatic malignant tumors of (abs), 700
Breast, cancer, management (abs), 422
carcinoma, radium treatment (abs), 422
male, tumors of (abs), 422
Bronchial tree, carcinoma, roentgen treatment, 92
non-opaque foreign bodies in, 51
Bronchiectasis, abscessed (abs), 124
Bronchography, lipiodol in, disadvantages, dangers and uses, 727

Calcification, in aortic and mitral valves, 328
intracranial, roentgen appearance (abs), 271
of pleura (abs), 708
progressive subcutaneous (abs), 567
Calcinosis interstitialis universalis (abs), 283
Canalis egestorius, combined contrast demonstration (abs), 130
Cancer, deaths from, according to age, from 1901 to 1930 (abs), 831
early symptoms (abs), 830
importance of nonspecific immunity in therapy of (abs), 834
local circulation and (abs), 570
of breast, management (abs), 422
of lip, five-year end-results of irradiation, 67
of lip, radium therapy (abs), 546
of lip, symposium on, 58–91
of stomach, further roentgen studies, 480
of uterine cervix, modifications of blood in patients irradiated for (abs), 568
of uterus and ovaries, radiation treatment (abs), 547
organization of fight against (abs), 830
prognosis of (abs), 831
superficial, late results from combined electrocoagulation and irradiation, 806
Sweden's campaign against (abs), 556
value of surgical treatment in fight against (abs), 832
Carcinoma, association of, with tuberculosis (abs), 708
bronchiogenic, roentgen treatment, 92
of breast, radium treatment (abs), 422
of lip, 59
of lip, treatment and results, 75
of ovaries, 126 cases treated by radiation (abs), 547
roentgen, healed by radium treatment (abs), 833
Cauda equina, compression of, by meningeal sarcoma (abs), 570
Ceco-sigmoidostomies, roentgen examination of (abs), 134
Celluloid, as support for radium preparations, experiments with (abs), 550
Century of Progress (E), 243
Cephalometry, roentgen, with pelvimetry in utero (abs), 549
Chest, comparison of orthodiagraphic and teleroentgenographic measurements of (abs), 548
dog board for obtaining symmetrical roentgenograms of, 540
infant, stereoscopic roentgenography of, in profile (abs), 120
interpretation of apical linear shadows in roentgenograms of (abs), 704
interpretation of triangular basal shadows in roentgenograms of, 289
physical foundations of roentgenography of, 234, 388, 523
roentgenograms of, produced with higher power factors, 95
roentgenographic changes in, of normal premature babies (abs), 121
technique of using paper films for roentgenograms of (abs), 548
trauma as etiological factor in production of diseases of, 8
Children, apparently healthy, of school age, value of roentgen ray in, 303
hemiplegia of cerebral hydatid cyst in (abs), 272
intravenous urography in (E), 420
"miliary" pulmonary hemorrhages on necropsy roentgenograms of, 768
peptic ulcers in (abs), 710
perifocal reaction in tuberculous adenopathy in (abs), 275
Cholecystography, further studies with, in late months of pregnancy, 774
some unusual pictures in (abs), 279
with hepato-lienography and pyelography (abs), 279
Chorionepithelioma of uterus (abs), 423
Cirrhosis of liver, roentgen appearance following thorotrast injection (abs), 279
Colitis, chronic ulcerative, roentgen aspects (abs), 134
Collapse therapy in early minimal lesions of pulmonary tuberculosis, 315

Colon, relief diagnosis of (abs), 133
roentgen identification of commonly encountered chronic ulcerative diseases of, 488
sigmoid, clinical and roentgen study of diseases of (abs), 281
Colors, aromatic, effect of x-rays on (abs), 563
Compensation cases, roentgen-ray and medical expert in hearing of, 47
Cooley's syndrome: See Anemia, erythroblastic
Cyst, cerebral hydatid, hemiplegia of, in children (abs), 272
intracranial dermoid (abs), 272
traumatic, of pancreas with infiltration into wall of stomach causing pyloric stenosis, 503
voluminous air, of lung in a child (abs), 274

Dermatologists, need of education in roentgenology (abs), 426
Dextrocardia secondary to eventration of diaphragm (abs), 126
Diaphragm, eventration of, dextrocardia secondary to (abs), 126
hernia of (abs), 126
left, absence of, associated with inverted thoracic stomach, 206
Disability, permanent, anatomical basis for disturbed function in evaluation of, 40
Disc rectifier, loss of tension in (abs), 563
Disease, comparison of medical, surgical and radiological conceptions in relation to treatment of (abs), 557
Diverticula, duodenal, roentgen diagnosis (abs), 133
Dogs, auditory effect of roentgen rays in, 215
board for obtaining symmetrical roentgenograms of chest of, 540
Dosage in radium therapy (abs), 548
in roentgen therapy of the skin (abs), 427
influence of treatment cone upon (abs), 428
with Sabouraud-Noiré tablets (abs), 426
Dose, cumulative, nomograms as aid in determination of, in roentgen and radium therapy, 265
Doses, fractional, of radium upon *Eudorina elegans*, importance of time factor in (abs), 427
protracted fractional, in roentgen therapy (abs), 833
Duodenum, diverticula of, roentgen diagnosis (abs), 133
improved frame for serial roentgenograms of (abs), 424
ulcer of, *en face* (abs), 134
Dyes, chemical effects of x-rays on (abs), 563

Echinococcus disease of bone (abs), 827
Editorials
Efficiency and economy applied to the roentgen department, 101
Roland E. Loucks, 103
A Century of Progress, 243
American Congress of Radiology, 244
Henry K. Pancoast, 247
Intravenous urography in children, 402

Roentgenology of the gastrointestinal tract, 688
March foot or pied forcé, 812
Effect, biological, comparison of x-rays and gamma rays (abs), 562
biological, of roentgen rays of long wave length (abs), 564
biological, of x-rays, time factor in (abs), 423
chemical, of x-rays upon aromatic colors and dyes (abs), 563
of fractional doses of radium rays on *Eudorina elegans*, importance of time factor in (abs), 427
of radium and x-rays on malignant growths (abs), 561
of roentgen irradiation on alkali reserve of blood (abs), 425
of roentgen irradiation on capacity of tumors for storing iodine and bismuth (abs), 550
of roentgen irradiation on lactic acid content of the blood (abs), 425
of roentgen irradiation on sodium content of blood serum (abs), 425
of roentgen rays on protozoa (abs), 552
of split doses of gamma radiation on tissue cultures in vitro (abs), 551
of time factor in irradiation (abs), 425
Effects, auditory, of roentgen rays in dogs, 215, 539
Elaidic acid, treatment of radiodermatitis by (abs), 567
Electrical theory, unified, 411
Encephalography under narcosis produced by nonvolatile anesthetics (abs), 699
Endocarditis, rheumatic mitral, roentgen aspects of heart in (abs), 276; (abs), 277
Epidermiolytic irradiation reaction (abs), 569
Epiphyses, chart of, 809
Epithelioma of lip, operation for, 82
of skin (abs), 421
pileous (abs), 568
Erythema, experimental production with borderline rays (abs), 556
Esophagus, hernia of orifice of (abs), 709
varices of (abs), 702
Eudorina elegans, importance of time factor on effect of fractional doses of radium rays upon (abs), 427
Eventration of diaphragm, dextrocardia secondary to (abs), 126
Exophthalmos, pulsating, in congenital absence of superior orbital wall, 756
Eye, foreign bodies, Vogt's method for demonstration of (abs), 699

Film for taking folio pictures with sharp outlines (abs), 549
Films, paper, technique of use of, in roentgenograms of chest (abs), 548
Fistula, gastrohepatic, 804
Focimeter, Busi's needle, and metal screen focimeter (abs), 424
Foreign bodies, in eye, Vogt's method for demonstration of (abs), 699
multiple, fibrinous, in pleural cavity an unusual complication of therapeutic pneumothorax (abs), 708
non-opaque, in bronchial tree, 51
removal of, with aid of double plane roentgenoscope, 674
Fracture, Colles', roentgen displacements in (abs), 137
Fractures, longitudinal, of patella (abs), 826
multiple spontaneous, of unknown origin (abs), 283
of jaws (abs), 119
of lower epiphysis (abs), 286
pathological, in osteomyelitis (abs), 284
Function, disturbed, anatomical basis for, in evaluation of permanent disability, 40

Gallbladder, "strawberry," pathogenesis (abs), 135
value of serial roentgen examination in study of (abs), 279
Gamma rays, comparison of biological effectiveness with x-rays (abs), 562
new method of homogeneous radiation treatment with (abs), 428
Gastrointestinal tract, examination of mucosa of by means of umbrathor (abs), 132
recent developments in roentgen examination of (abs), 131
response of, to external electric stimulation (abs), 129
roentgen exploration of, by means of thorium salts (abs), 132
roentgenology of (E), 686
study of mucosa of, by means of opaque colloids (abs), 131
Gaucher's disease (abs), 140
Goiter, exophthalmic, clinical and anatomic study (abs), 421
Grains, radiosensitivity of, at beginning of germination (abs), 550
Granulations, case of subcutaneous calcareous (abs), 567

Head rest for sinuses and mastoids, 817
Heart, aneurysms, diagnosis (abs), 276
calcification in aortic and mitral valves, 328
comparison of orthodiagraphic and teleroentgenographic measurements of (abs), 548
kymography of (abs), 278; (abs), 548; (abs), 701
roentgen aspects of, in rheumatic mitral endocarditis (abs), 276; (abs), 277
roentgen examination (abs), 277
roentgen examination of, in left auricular enlargement (abs), 701
roentgen image of auricular fibrillation (abs), 277
roentgen research on volume of, and cardiac index in children from six to twelve (abs), 278
volume of, orthodiagraphic determination of (abs), 127
Hemiplegia of cerebral hydatid cyst in children (abs), 272
Hemorrhages, "miliary" pulmonary, on necropsy roentgenograms of children, 768
Hemorrhagic syndrome, roentgen treatment in diseases with (abs), 545
Hepato-lienography in connection with cholecystography and pyelography (abs), 279
Hernia, diaphragmatic (abs), 126
esophageal orifice (abs), 709
Hilus of lung in child (abs), 122
Hip joint, arthrokatadysis of (abs), 825
Hyperparathyroidism: See Parathyroidism
Hypertension, essential, of medulla oblongata, roentgen treatment (abs), 420

Inflammations, radiotherapy of (abs), 829
International Congress of Radiology, Fourth, 538
Intestine, large, diseases of (abs), 280
spontaneous elimination of, with temporary recovery (abs), 135
Iodized oils, effect of, on meninges (abs), 551
Ionization chambers, small, wave length dependence of (abs), 561
Ionometers, new researches on (abs), 553
Iopax, use of, in urography (abs), 137
Islands of Langerhans, relation of, to malacic diseases of bone, 641

Japanese roentgen societies and literature, 816
Jaws, fractures of (abs), 119

Kashin-Beck's disease, 621
Kidney, horseshoe (abs), 137
Kidneys, arteriography of (abs), 282
demonstration and significance of nephroptosis and urinary stasis (abs), 137
roentgenographic molds of cavities of, by retrograde uretero-pyelography (abs), 282
Kienböck's disease of semilunar bone of the wrist, 1
Knee joint, tuberculosis of, 747
tuberculosis of, pathology and treatment (abs), 141
Kymography, cardiovascular, new findings (abs), 278
of heart (abs), 548; (abs), 701
Kyphosis adolescentium (abs), 821

Larynx, roentgen examination in polypoid tumors of, 464
Linitis plastica (abs), 133; (abs), 280
Lip, cancer, five-year end-results in irradiation of, 67
cancer, radium therapy (abs), 546
cancer, symposium on, 58–91
carcinoma, 59
carcinoma, treatment and results, 75
epithelioma, operation for, 82
Lipiodol in bronchography, disadvantages, dangers and uses, 727
roentgen exploration of biliary paths by aid of, in pancreatitis (abs), 135
Liver, cirrhosis of, roentgen appearance following thorotrast injection (abs), 279
Loucks, Roland E., obituary notice (E), 103
portrait, 103
Lumbosacral joint, unilateral subluxation of (abs), 823
Lung, interlobar sclerosis of accessory lower lobe of (abs), 706
interpretation of apical linear shadows in roentgenograms of thorax (abs), 704
osteogenetic metastases, from osteosarcoma of femur (abs), 708
paradoxical picture of (abs), 704
right, capillary line of (abs), 707
roentgen picture of lower accessory lobe of (abs), 706
roentgen picture of, showing many intersecting rings (abs), 706
voluminous air cyst of, in child (abs), 274
Lungs, abscess (abs), 125
abscess, roentgen diagnosis (abs), 125
asbestosis of (abs), 126
basal lesions of (abs), 707
change of shadow depth of roentgen picture of, in respiration (abs), 119
congenital diseases of (abs), 120
diseases of, in children (abs), 122
experimental study of roentgen visualization of arteries of (abs), 274
frequency of early infiltration (abs), 705
hilus, in child (abs), 122
interlobar pleurisies and abscesses of (abs), 120
interpretation of triangular basal shadows in roentgenograms of chest, 289
lower median edge of, roentgen picture (abs), 707
malignant disease of (abs), 123
massive collapse, significance of roentgenologic changes in differential diagnosis, 429
"miliary" hemorrhages of, on necropsy roentgenograms of children, 768
postoperative massive collapse (abs), 125
tumors, roentgen diagnosis (abs), 275
vena azygos, roentgen demonstration (abs), 127
Lymphogranulomatosis, etiologic and pathogenic conceptions (abs), 143
Magnesium chloride, influence of, on evolution of experimental sarcoma (abs), 567
Malignancy, incidence of, in chronic prepyloric gastric ulcerations, 473
nature of action of x-rays and radium upon (abs), 561
of lung (abs), 123
pelvic, technique in irradiation (abs), 423
trauma as etiological factor in, 16
Marble bones, 618
March foot (E), 812
Mastoiditis, clinical, roentgen and operative findings in 158 cases, 452
new sign of early cell necrosis, 452
Mastoids and sinuses, combined head rest for, 817
Measles, pneumonia in, roentgen findings (abs), 123
Measurement, accurate, of small electric charges by a null method (abs), 563
direct, of tube tension in therapy with pointer instrument (abs), 424
in r of gamma rays from radium (abs), 552
of tension of roentgen tubes, new method (abs), 555
of total x-ray energy, thermo-electric instrument for, with determination of practical units (abs), 555
of tube tension for diagnosis and therapy, new voltmeter for (abs), 555
roentgen, of pelvis and head in uterus (abs), 549
Mediastinum, tumors of, anatomo-clinical forms, and sensitivity to radiation (abs), 127
Medicolegal practice, symposium on, 1–50
Medulla oblongata, essential hypertension of, roentgen treatment (abs), 420
Melorheostosis Léri (abs), 138
Meninges, effect of various iodized oils on (abs), 551
Meningiomas of convexity of the brain (abs), 271
Mesothorium content of encapsulated radium preparations, determination of (abs), 565
Metacarpal bone, osteoblastic osteoid tissue-forming tumor of (abs), 285
Minnesota Radiological Society, 107, 694
Mouth, malignant tumors, radiation therapy (abs), 546
Murphy, John T., portrait opposite page 429
Myeloma, multiple, unusual roentgen finding in, 56
multiple, with spinal cord involvement, 201

Neurosis, traumatic, 44
Nomogram as aid in determination of cumulative dose in roentgen and radium therapy, 265
Novocaine, therapeutic value of periarticular injections of, in sprains and traumatic arthritis (abs), 141

Obstetrics, use of roentgenography in (abs), 136
Optic canals, method of taking both on same film (abs), 550

ORBITAL WALL, superior, congenital absence of, associated with pulsating exophthalmos, 756
Os CALCIS, giant cell tumor of (abs), 828
OSTEITIS DEFORMANS, roentgen irradiation of parathyroid region in, 668
OSTEITIS FIBROSA, generalized, observations on the bones, parathyroid tumors and normal parathyroid glands (abs), 139
OSTEITIS FIBROSA CYSTICA, associated with parathyroid overactivity, 596
OSTEOARTHRITIS DEFORMANS contrasted with osteoarthritis deformans juvenilis (abs), 287
OSTEOCHONDRITIS DISSECANS (abs), 285
OSTEOGENESIS IMPERFECTA, 631
associated with lesions of parathyroid glands (abs), 138
OSTEOMALACIA, review of modern conception of the disease, 590
OSTEOMYELITIS, pathological fractures in (abs), 284

PANCOAST, HENRY K., biographical note, 247
portrait, 246
PANCREAS, traumatic cyst of, with infiltration into wall of stomach causing pyloric stenosis, 503
PANCREATITIS, roentgen exploration of biliary paths with lipiodol in (abs), 135
PARATHYROID GLANDS, congenital bone dysplasia associated with lesions of (abs), 138
irradiation in cystic disease of bones (abs), 547; 668
overactivity of, association with osteitis fibrosa cystica, 596
their relation to malacic diseases of bone—symposium, 571–674
PARATHYROIDISM, its clinical symptomatology, 571
its pathologic and etiologic classification, 578
observations upon bones, parathyroid tumors and normal parathyroid glands (abs), 139
PATELLA, longitudinal fractures of (abs), 826
PEARLS, use of x-rays in study of (abs), 558
PELVIMETRY, roentgen, new method, 111
roentgen, with cephalometry in utero (abs), 549
PELVIS, malignancies in, technique in irradiation (abs), 423
PENIS, double, with double bladder, 497
PERICARDIUM, severe injury of, after deep roentgen irradiation of precordial region (abs), 833
PERIVISCERITIS, roentgen diagnosis (abs), 130
PERTHES' DISEASE (abs), 825
PETROSITIS, roentgen demonstration of (abs), 698; (abs), 699
PETROUS APEX, roentgen findings in suppuration of, 156
bone, roentgen picture in deep otogenous diseases of (abs), 699
pyramid, simple technique for roentgen examination of, 415
PHARYNX, origin of Zenker pouch of (abs), 702
PHOTOGRAPHER, the first, 409
PHOTOGRAPHY, pictorial, exhibit of, 409
PIED FORCÉ (E), 812
PINEAL BODY, roentgen considerations, 145, 694
PITUITARY GLAND, adenomas of, 765
PLANIGRAPHY (abs), 549
PLEURA, calcification of (abs), 708
PLEURAL effusions, free, errors in diagnosis, 410
recess, posterior, roentgen picture (abs), 706
PLEURITIS, transmigration, in abdominal disease processes (abs), 119
PNEUMONIA, measles, roentgen findings (abs), 123
PNEUMOPERITONEUM, spontaneous, value of early roentgen demonstration of, in perforated stomach ulcer (abs), 709
PNEUMOTHORAX, artificial, in group of cases of pulmonary tuberculosis formerly looked upon as hopeless, 309
clinical and roentgen considerations (abs), 129
opaque or paradoxical, cause (abs), 705
therapeutic, multiple fibrinous foreign bodies in pleural cavity an unusual complication of (abs), 708
unusual picture in (abs), 708
unusual roentgen appearance of, complicated by adhesive pleurisy (abs), 704
POLYARTHRITIS, 608
PREGNANCY, further cholecystographic studies in late months of, 774
influence of, on urinary paths studied by uroselectan and abrodil (abs), 282
PROETZ METHOD, for exploration of sinuses of cranium (abs), 272
in diagnosis and treatment of sinusitis (abs), 273
of examination of sinuses, apparatus for use in (abs), 273
PROTECTION against electricity and rays in radiology (abs), 559
clamp for the testis, 115
PROTOZOA, action of roentgen rays on (abs), 552
PUBLIC HEALTH and tuberculosis, 300
PULMONARY ARTERY and aorta, communication between (abs), 128
PYELOGRAPHY with cholecystography and hepatolienography (abs), 279
PYLORUS, ulcer of, "vis-a-vis" (abs), 710

RADIATION, epidermiolytic reaction to (abs), 569
new method for determining intensity of γ and x-rays (abs), 566
organs as emitters of (abs), 426
output of, from rectified alternating current,

rectified rotating current and true constant tension (abs), 564
scattered, quality and significance of, produced in water subjected to beams of x-rays and gamma rays (abs), 568
secondary, in organism during deep radiotherapy (abs), 553
secondary, method of excluding greater part of, in roentgenography (abs), 423
secondary, of radium, experimental investigations (abs), 427
spectrum of, from high potential x-ray tube (abs), 563
therapy, homogeneous, with gamma rays, new method (abs), 428
what is it? (abs), 555
Radiodermatitis, treatment of, by elaidic acid (abs), 567
Radiography, experimental, using gamma rays of radium (abs), 551
Radiological Institute, Mauriziano, at Turin (abs), 559
Radiologists, relation of American Society for Control of Cancer to, 723
Radiology, future of, as a medical specialty, 711
postgraduate and graduate teaching of (abs), 560
protection against electricity and rays in (abs), 559
protection of, as a specialty of medicine, 260
teaching of, to undergraduate students (abs), 561
Radiosensitivity of grains at beginning of germination (abs), 550
Radiothorium content of encapsulated radium preparations, determination of (abs), 565
Radio-ulnar synostosis, congenital bilateral (abs), 286
historical review and case report (abs), 286
Radium, detection and estimation in living persons, 515
effect of split doses of gamma radiation on tissue cultures in vitro (abs), 551
encapsulated preparations, mesothorium and radiothorium content of (abs), 565
experimental radiography using gamma rays of (abs), 551
measurement in roentgens of gamma rays from (abs), 552
multiplication of effect of small doses of, on tissue cultures in vitro (abs), 428
needles, cabinet for storage of (abs), 558
preparations, experiments with celluloid as support for (abs), 550
secondary beta rays from surface of containers for (abs), 562
secondary radiation of, experimental investigations (abs), 427
suit in a case of injury from, withdrawn by plaintiff (abs), 426
therapy, dosage in (abs), 548
therapy, nomogram as aid in determination of cumulative dose in, 265
Radius, fractures of lower epiphysis of (abs), 286
Radon seeds, fields of radiation from (abs), 552
Raynaud's disease, calcareous concretions in, 177
Rectifier, rotating, drop of tension with (abs), 556
Rickets, 582
renal, 624
Roentgen department, efficiency and economy applied to, 101
diagnosis and therapy, two-valve transformer for (abs), 556
energy, total, variation of, with potential (abs), 556
examinations made in special car of Northern Railway (abs), 558
exposures, rationalization of (abs), 554
films, "chip-in" method for recording and compensating for degree of exhaustion of developing solution, 695
films with nitrocellulose base, danger of (abs), 424
-ray standards, international comparison (abs), 562
rays, auditory effects of, in dogs, 215, 539
rays, basis for comparison of, generated by voltages of different wave form, 368
rays, comparison of biological effectiveness with gamma rays (abs), 562
rays, distribution of, in skin (abs), 559
rays, emergence of, experiments with Busi's needle focimeter and metal screen focimeter (abs), 424
rays, genealogy of, 180, 349
rays, time factor in biological action of (abs), 423
rays, used in study of pearls (abs), 558
rays, value of, in apparently healthy children of school age, 303
therapy, energy considerations in high voltage, 380
therapy, energy considerations in medium and high voltage, 529
therapy in diseases with hemorrhagic syndrome (abs), 545
therapy, nomogram as aid in determination of cumulative dose in, 265
therapy, protracted fractional doses in (abs), 833
therapy, superficial, new apparatus for, using a combined valve roentgen tube (abs), 427
tube, Coolidge, safety device for double focus, 541
tube, effective applied voltage as indicator of energy emitted by, 221
tube, high potential, spectrum of radiation from (abs), 563
tubes, new high tension voltmeter for direct

measurement of tension of, in diagnosis and therapy (abs), 555
tubes, new method for measurement of tension of (abs), 555
tubes, roentgen-ray output comparisons of, and therapy circuits, 229
ROENTGENOGRAMS, film for taking, in folio size (abs), 549
of chest produced with higher power factors, 95
ROENTGENOGRAPHY, new method of differentiation in—planigraphy (abs), 549
method of excluding greater part of secondary radiation in (abs), 423
standards in (abs), 549
ROENTGENOLOGY, influences affecting future of, 718
need of education in, for dermatologists (abs), 426
ROENTGENOSCOPE, double plane, foreign body removal with aid of, 674

SABOURAUD-NOIRÉ TABLETS, dosage with (abs), 426
SARCOMA, experimental, influence of ammonium chloride on evolution of (abs), 567
experimental, influence of magnesium chloride on evolution of (abs), 567
medullary, of vertebra, 468
meningeal, compression of cauda equina by (abs), 570
of bone, treatment of (abs), 423
ten years' radiotherapy of (abs), 833
SCHÜLLER-CHRISTIAN'S DISEASE, 649; (abs), 698
SELLA TURCICA, normal and pathologic, roentgen picture (abs), 700
SEMINAL VESICLES, diagnosis and therapeutic management (abs), 136
SINUSES and mastoids, combined head rest for, 817
of cranium, apparatus for use in Proetz method of examination (abs), 273
of cranium, Proetz method for exploration of (abs), 272
SINUSITIS, Proetz method in diagnosis and treatment of (abs), 273
SITUS INVERSUS viscerum totalis, roentgen diagnosis (abs), 129
SKIN, distribution of roentgen rays in (abs), 559
dosage in roentgen therapy of (abs), 427
effect of anemia on reactions of, to radium exposure (abs), 562
epithelioma of (abs), 421
indication for roentgen therapy in diseases of (abs), 420
sensitized, histology of irradiation with roentgen rays (abs), 428
SKULL, anomalies of, in new-born, 458
infiltrating tuberculosis of vault of (abs), 698
nuchofrontal roentgenography of (abs), 271
results of roentgen treatment of obscure lesion of (abs), 545
SPINAL CORD, involvement of, in multiple myeloma, 201
SPINE, lumbar, case of actinomycosis showing involvement of, 508
roentgen diagnosis of deformities of, 163
SPONDYLITIS, ankylosing, 608
SPONDYLOLISTHESIS (abs), 140
and vertebral anomalies in skeletons of American aborigines (abs), 822
SPRAINS, therapeutic value of periarticular injections of novocaine in (abs), 141
STANDARDS in roentgenography (abs), 549
STOMACH, carcinoma, further roentgen studies, 480
chronic prepyloric ulcerations in, incidence of malignancy, 473
combined contrast demonstration of canalis egestorius (abs), 130
pedunculated tumor of (abs), 710
thoracic, inverted, absence of left diaphragm associated with, 206
traumatic cyst of pancreas with infiltration into wall of, causing pyloric stenosis, 503
tumors (abs), 133
ulcer of, value of early roentgen demonstration of spontaneous pneumoperitoneum in perforations of (abs), 709
Streptococcus viridans osteomyelitis (abs), 284
SUBLUXATION, unilateral, of lumbosacral joint (abs), 823
SUPPURATION of petrous apex, roentgen findings, 156
SWALLOWING, normal mechanism of (abs), 558
SYMPHYSIS PUBIS, separation of, 797

TECHNIQUE for examination of cranial sinuses (abs), 272
for examination of cranial sinuses, apparatus for use in Proetz method (abs), 273
for roentgen examination of petrous pyramid, 415
nuchofrontal, for roentgenography of skull (abs), 271
of roentgen examination of temporomandibular articulation, 262
of using paper films for roentgenograms of chest (abs), 548

TEMPOROMANDIBULAR ARTICULATION, technique of roentgen examination of, 262
TENSION, dependence of exposure time on (abs), 563
drop of, with rotating rectifier (abs), 556
loss of, in disc rectifier (abs), 563
TESTIS, protection clamp for, 115
THORIUM SALTS, roentgen exploration of digestive tract by means of (abs), 132
THOROTRAST, influence of, on blood formula (abs), 551
roentgen appearance of liver cirrhosis following injection of (abs), 279
THYROID, relation of, to malacic diseases of bone, 641
TISSUE CULTURES, in vitro, effect of split doses of gamma radiation (abs), 551

in vitro, multiplication of effect of small radium doses on (abs), 428
Tissues, soft, air and gas in, roentgen study (abs), 144
Tonsils, roentgen therapy of hypertrophy of (abs), 829
Trauma, as etiological factor in malignancy, 16
as etiological factor in production of diseases of the chest, 8
in genesis of tumors (abs), 566
neurosis following, 44
relation of, to arthritis, 26
"Tripharyx" generator (abs), 554
Tuberculosis among medical students (abs), 703
association of, with carcinoma (abs), 708
examination of school children for, 303
ileocecal, and double contrast anema examination, 779
infiltrating, of vault of cranium (abs), 698
juvenile suspects (abs), 703
modern case-finding in (abs), 703
of glands in children, perifocal reaction in (abs), 275
of knee joint, 747
of knee joint, pathology and treatment (abs), 141
problem of, in Detroit, 321
public health and, 300
pulmonary, artificial pneumothorax in group of cases of, formerly looked upon as hopeless, 309
pulmonary, childhood type (abs), 122
pulmonary, chronic type and location of roentgen shadows in diagnosis of, 449
pulmonary, collapse therapy in early minimal lesions of, 315
pulmonary, importance of roentgen examination in modern treatment of, 305
pulmonary, protest against conception of arrest of, as outlined by classification of American Sanatorium Association (abs), 704
pulmonary, roentgen manifestations of allergic processes in, 296
pulmonary, social rôle of roentgen diagnosis in detection of (abs), 275
Tumor, giant cell, of astragalus (abs), 828
giant cell, of bone, 604
giant cell, of os calcis (abs), 828
of stomach, pedunculated (abs), 710
osteoblastic osteoid tissue-forming, of carpal bone (abs), 285
pathology, Radiumhemmet's department for (abs), 566
Tumors, effect of anemia on reactions of, to radium exposure (abs), 562
effect of roentgen irradiation on capacity of, for storing iodine and bismuth (abs), 550
gastric (abs), 133
malignant, of mouth, radiation therapy (abs), 546
of brain, metastatic malignant (abs), 700
of male breast (abs), 422
of mediastinum, anatomo-clinical forms, and sensitivity to radiation (abs), 127
polypoid, of larynx, roentgen examination of, 464
pulmonary, roentgen diagnosis (abs), 275
trauma in genesis of (abs), 566

Ulcer, chronic prepyloric gastric, incidence of malignancy in, 473
duodenal, *en face* (abs), 134
of pylorus, "vis-a-vis" (abs), 710
peptic, in children (abs), 710
Umbrathor, examination of mucosa of digestive tract by means of (abs), 132
impregnation of mucosa of large intestine with (abs), 131
University of Wisconsin Roentgen Club, 694
Urinary system, influence of pregnancy on, studied by uroselectan and abrodil (abs), 282
new method of roentgenography of, by uroselectan (abs), 282
Urography, intravenous, in children (E), 402
iopax in (abs), 137
Uroselectan, new method of roentgenography of urinary system by (abs), 282
Uterus, cancer, radiation treatment (abs), 547
cervix, cancer, modifications of blood in patients irradiated for (abs), 568
chorionepithelioma (abs), 423

Vaccine lymph, experiments with roentgen irradiation of (abs), 550
Valves, aortic and mitral, calcification in, 328
Vaquez' disease, roentgen treatment (abs), 547
Vertebra, medullary sarcoma of, 468
Vertebrae, anomalies of (abs), 139
anomalies of, in skeletons of American aborigines (abs), 822
lateral dislocation (abs), 823
Vogt's method of demonstrating foreign bodies in the eye (abs), 699
Voltage, effective applied, as indicator of energy emitted by roentgen tube, 221

Wrist, Kienböck's disease of semilunar bone of, 1

Xanthomatosis, case treated with teleradium (abs), 545

Zenker pouch of pharynx, origin (abs), 702
